PHILOSOPHY

Welcome to Mommy’s Kids Childcare Centre Ltd., “*where fun and learning begins*”.

Mommy’s Kids Childcare Centre Ltd. (MKCC) is committed in providing a program that supports and preserve the safety, security, well-being and development of the child. We offer accessible and flexible childcare support to families and aim to be engaged with parents, guardians, and the community members at large in providing a holistic child care for children's optimal development.

We foster a nurturing place that encourages children in having care and play experiences that support their development and learning. It is of our priority to protect each child from all forms of physical punishment, physical and verbal abuse, and emotional deprivation. We respect and value diversity and inclusion in our program and welcome all families, children, and staff coming from different socio- economic backgrounds, ethnicities, and physical, mental, and emotional abilities. We acknowledge the child's familial and Indigenous or other cultural, social, linguistic and spiritual heritage and recognize its central value in the child's safety, well-being and development. We adapt our program appropriately to meet the child's mental, emotional, spiritual and physical needs, and stage of development. In providing quality and holistic child care, we involve our parents and guardians to keep us accountable in maintaining high standard care.

MKCC curriculum includes planned activities driven by the children’s interests that allows them to explore arts and crafts, music and drama, learn science and math concepts, expand literacy skills and develop fine and gross motor skills. We provide opportunities in their environments to reinforce learning from home and school, teach social skills and encourage good behavior. It is Reggio Emilia-inspired and emergent in nature. It follows the Flight Framework where children are viewed as mighty learners capable of being co- constructors, co-researchers and co-imaginer of possibilities. The environment, being the third teacher, is intentionally set-up to foster children's holistic development and provide opportunities for children to take on different roles, both indoor and outdoors, as well as resolve conflicts among their peers or under the supervision of program staff.

MISSION STATEMENT

To provide quality childcare services and education in an enriching and stimulating learning environment that facilitates the physical, intellectual, emotional, social and creative development of a child.

Mommy's Kids Childcare overall objective is to promote optimal development by allowing each child to create their own environment through constructive play and activities and have teacher-guided activities where children are able to trying new activities that they wouldn't otherwise try on their own.

DISCIPLINE POLICY

At Mommy's Kids Childcare, children are disciplined in a constructive way that is proper to their actions and their ages. Any child disciplinary action taken must be reasonable in the circumstances; under no circumstance will any form of physical punishment verbal/physical degradation or emotional deprivation be inflicted. Basic necessities will NEVER be threatened or taken away. Absolutely NO form of physical restraint, confinement or isolation will we used.

UNIVERSAL POLICY- ALL CHILDREN:

Disciplinary measures will be carried out in such a way as to help children develop self-control and develop responsibility for their actions. Children causing harm to themselves or others will be redirected immediately into more positive activity and behavior. Aggressive behavior will not be tolerated and may result in removal from the program.

All other infractions will be handled by staff with a progression of interventions including:

Warning & advice of appropriate behavior - The staff will attempt to give the child the chance to change their behavior into a positive behavior by advising the child of the appropriate behavior. This will be done by using clear language; clearly communicated classroom ground rules, frequent reminders as well as role modeling.

Redirection - If the improper behavior continues then it will be addressed by redirecting the child's behavior or removal of the object causing the behavior. The staff will discuss with the child why this behavior was unacceptable and encourage the child to share his/her feelings regarding the situation. Staff will do this while giving the child time to calm down. Staff will reassure the child both verbally (using encouragement and gentle coaching) and physically (such as a hug). Staff may utilize this time to have a private discussion with the child regarding feelings and

respect. The staff will encourage the child to resolve their own conflicts and assist when required. Staff will ensure that the child knows they are cared for regardless of their behavior.

Explanation of Consequences (For children 36 months or older) - the consequences of the child's action will be clearly discussed with the child prior to redirecting them into a more appropriate direction. An example of this would be if two children are fighting over a toy and encouragement of sharing is not working then the staff will verbally discuss the class rules with the older children and will explain to them that if they cannot reach a sharing agreement the item will be taken away and neither child will be allowed to play with it. Attention will be paid to the child's self-esteem while correcting the behavior. **Any consequences or disciplinary action taken must be reasonable given the circumstances and age of child.**

Parental involvement - Parent involvement is of primary importance and will occur in a timely manner, using a discipline report. Parents will be required to sign a discipline report acknowledging that their child either cannot or will not control their own behavior after warnings and redirection with consequences. The third occurrence of such behavior will result in the child being suspended for 1 attendance day and the parent will need to have someone pick them up right away. After one suspension day the child may return if a parent/teacher or parent/teacher/child conference has occurred. Immediate repetition of the behavior will result in a second one day suspension.

Removal of the child: The repetition of a child failing to control their behavior despite the joint efforts of staff and parents will result in removal of the child from the program.

BULLYING AND RACISM

Mommy's Kids Childcare Centre hold a zero tolerance for racism or bullying. Any CHILD or PARENT found verbally or physically bullying or using racist language or actions against another child, staff or parent will be asked to leave the premises (parent will be called to pick them up immediately). Depending on the severity of the actions the center may suspend service until parent conference can occur. If the action was severe than the extreme behaviors clause may apply.

EXTREME BEHAVIORS- TERMINATION OF CARE

In the occurrence of extreme behavior the center reserves the right to terminate without notice any services for children who have been found to:

If an agreement is not met, Mommy's Kids Childcare Centre has the right to terminate with 2 weeks notice.

OFF-SITE ACTIVITY AND EMERGENCY EVACUATION

Our Centre will communicate with parents daily through the HiMama App, email, communication notebooks, or the Centre's website. Using these methods, the Centre can inform parents about any plans for community walks or field trips.

Staff and volunteers are responsible for the same safety and nurturing environment on a trip as within the center. To maintain this, Mommy's Kids Childcare Centre ensures that:

- Parents will be required to sign a consent form for their child to participate in the activity.
- In any off-site activity or emergency evacuation, a staff member takes the portable records in respect of each child to be taken off the program premises.
- At all times on a field trip, children are required to stay with their assigned teacher/group.
- Washroom breaks will require group supervision and will be done on a scheduled basis unless it is an emergency.
- All trips will have a designated meeting place in case of emergencies.
- All center policies will still apply on a trip. ie. Hands and feet are kept to yourself
- Staff to children ratio will be enhanced when the children are out on a field trip.
- Parent volunteers are always welcome.
- Safety rules are reviewed with children and their chaperones prior to each fieldtrip.
- Staff will prepare children for outings by explaining where they are going, why they are going, what will happen, whom they will see, and who they will need to listen to.

If any rule and safety precautions are not adhered to, Mommy's Kids Childcare Centre has the right to call parents to come pick up their child and may decide not to allow the child to participate on the next trip depending on the severity.

EVACUATION PROCEDURES

In the occurrence of an emergency, the following procedure must be followed:

1. The teachers in each classroom will tell the children to line up quickly and quietly and follow them to the nearest emergency exit. The teachers must bring with them their emergency backpack.
2. The Program Supervisor or Designate will call 911. If possible, one of the staff will stay at the facility to meet the emergency response unit when they arrive or may notify the response unit of the staff and children's location.
3. Staff and children will assemble at the outdoor playground located at the north end of the building and each of the primary staff will do an initial child count using the attendance sheet to make sure all the children are accounted for.
4. The Program Supervisor will check the classrooms, kitchen, closets and washrooms making sure no one is left behind. The Program Supervisor will take the staff and children's sign in sheets for the day, portable emergency file box and first-aid kit.
5. The Program Supervisor or Designate will do a secondary headcount for both staff and children to make sure everybody is accounted for and that the count coincides with the center's attendance records.

6. Children will then be taken to the designated meeting place, located at **Woodcreek Community Hall 1991 Woodview Drive SW T2W 5E5** just next block from the center. The Phone number is **403-238-1611**. Children will be able to walk immediately to evacuation location and keys are not required to access the said evacuation facility.
7. At the evacuation facility, the Program Supervisor will do a final headcount of all the children and staff.
8. All children and staff are to remain in the evacuation center until the parents have been notified to pick up their children or until Calgary Fire/Police personnel have deemed the premises safe. **No one may re-enter the building until authorized.**

Each room has a floor plan posted nearest to the emergency exits and is clearly marked.

Emergency procedures and emergency contact numbers are also posted around the center at the nearest emergency exits and is found in the Policies and Procedures Manual.

ACCIDENT OR ILLNESS

In the event of sudden illness, or medical emergency, the staff will take appropriate action, apply first aid and then contact the parent and call 911 if necessary. The parents are expected to make arrangements to pick up their child within the hour. In the event the Centre is unable to reach parents, the Centre will call the emergency contact to pick up the child. The Centre then will investigate the accident or illness with staff and parents to document it and keep it in the Centre's records to be reviewed in the future if needed.

To help support the protection of privacy and personal information, Mommy's Kids Childcare Centre assures that no child or staff names, initials, and age or birth date of child are used on the posted serious occurrence notification form.

HEALTH POLICY

POTENTIAL HEALTH RISK

To minimize the transmission of communicable diseases and for everyone's well-being, ill children cannot be admitted to the Centre. At the initial interview, our Centre will explain its established sickness policy to parents in person and through our parent handbook. Our Centre must be kept informed of any serious or contagious illnesses which could be transmitted to the Centre through our children or staff.

Children will be visually assessed as they arrive to the program. The staff will look for rashes, bruises and will take temperature using a digital forehead thermometer, if needed, and watch for change in behavior. This procedure will help staff detect illness early and prevent it from spreading. The Centre is not required to accept on any given day ill children, and there is no rebate for missed days due to illness. If a child becomes ill while in our care;

E.g. fever, diarrhea, vomiting, or new unexplained rash or cough.

- A child requires extra attention which can't be provided while keeping up with the needs of the rest of the children
- A child shows symptoms that may pose health risks on other persons in the program.

Staff will call the parent to arrange immediate removal from the program. Once sent home, the child will not be allowed back in the program until he/she is symptom free for 24hrs or if parents have a physician's note. If parents can't be reached or if they can't arrange for immediate removal for the child, the program will ask parents to contact the child's emergency contact to arrange for the child's pick up. Our Centre will notify all parents within twenty-four hours if a communicable disease breaks out in the Centre. Our staff will document ill children in a form that includes the following:

- The child's name.
- The name of the staff who observed that the child was sick.
- The date and time when the child got ill.
- The date and time parent was notified.
- The name of the staff who notified the parents.
- The date and time when the child was removed from the program.
- The date and time the child returned to the program.

NOTIFYING THE CENTER

Please notify the center if your child contracts a communicable disease as soon as possible. This will allow Mommy's Kids Childcare Centre to inform other families in our center to watch their own child for signs and symptoms. It will also allow us to notify our community Health Nurse of an outbreak of the disease.

Mommy's Kids Childcare Centre will follow Alberta Health Services guidelines and restrictions regarding communicable diseases. This authority and their rules and regulations will supersede parents and doctors' recommendations.

Children may return to the center when they meet any or all of the following:

- Clear of signs and symptoms and can fully participate in all activities including outdoor activities.
- Have their physicians permission (note) stating they are no longer infectious.
- Meet the requirements as outlined by Alberta Health Services.

SUPERVISED CARE FOR SICK CHILDREN

Our staff will keep a sick child comfortable on his/her rest mat in a quiet area away from other children to minimize transmitting diseases but close enough so he/she can be supervised by the group's primary caregiver.

ADMINISTRATION OF MEDICINE

The date on medication to be given during the hours of care must be valid, and the medication must be clearly labeled with the child's name, the amount of dosage and medication must be in its original container. The medicine cannot be administered before parents complete and sign a consent form that includes the following:

- The child's name.
- The name of the medication.
- The time and date for the medication to be administered.
- The dosage of medication that needs to be administered.

- The initials of the staff who administered the medication.
- The date when the medication/herbal remedy was given back to the parent.

All medication must be kept in a lock box and inaccessible to children.

If emergency medication is required, parents must explain in person and in writing to staff the proper way of administering medication. This document will be kept in the child's file and a copy of the document will be posted on the bag of the medication,

which will be kept in a place that is inaccessible to children.

HEALTH CARE

Parents are expected to keep their child's immunizations record up to date. Children with illnesses that may pose health risks on others will not be accepted into the program. Children who require extra health care which may prevent staff from actively supervising other children, will not be accepted into the program. sheet from their doctor.

5. Staff will take reasonable steps to create a safe program room:
 - Monitor that NO food will be brought into Centre or disinfecting of tables before & after eating.
 - Follow Hand washing procedures and other measures as dictated by the allergy sheet and the plan signed by the parents/guardians.

Staff are required to be trained on Epi-Pen usage and anaphylactic reactions during their CPR recertification. While every effort is made to accommodate food allergies, the Centre bears no responsibility for accidental exposure to allergens.
